Danny,

I found the image your friend posted and then did some research and found a few more.

It looks like a fantastic show. Neat image on the 1984 1/2 variety...

Reports are that the "Jocular delivery" of the slide show and accompanying presentation were seen as well presented and "deeply profound."

Not bad coming from, "America's most celebrated senior collector of gold Chinese panda coins."

Nice Tie!

Subject: Nose

Date: May 11, 2012 7:01:01 PM PDT **To:**

A Chinese Nanjing Mint coin designer asked our translator (John Ding) if she could touch my nose. She was very serious. She liked my nose.

In front of 50 people (the other 50+ left the room) and on stage, she touch my nose....Drew took the photo...laughing very hard.
